

# MYP EXCLUSIVES!

NEW items offered exclusively at Mast Young Plants in 2019/2020!

**Calibrachoa** Candy Shop™ Chocolate by Westhoff

**Petunia** Itsy Magenta by Syngenta Flowers

**Dahlia** XXL Cancún by Dümmer Orange

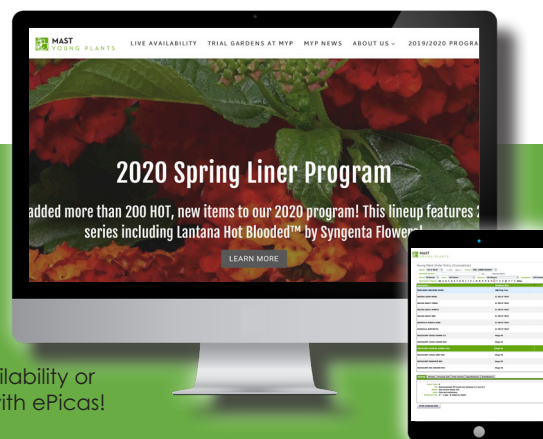

We're excited announce THREE new items that will only be available at Mast Young Plants in the 2019/2020 Spring Liner Program. All three were tested and tried in 12" pantera pots in our 2019 Trial Garden in Grand Rapids, Michigan and exhibited outstanding garden performance.

These NEW items will all be available in our popular Split 51 Tray beginning week 45, 2019.

**Calibrachoa** Candy Shop™ Chocolate: New addition to the wildly popular Candy Shop™ series of Calibrachoa. New, unique color/pattern for the industry. Plants are medium to vigorous, making them ideal for combos and hanging baskets.

**Petunia** Itsy Magenta: New standalone series. A controlled, mounded, tight carpet of color. Exceptional color coverage. Great into the heat of summer.

**Dahlia** XXL Cancún: HUGE flowers with sturdy stems. Flowers held up with little space above the plant giving a very attractive look. Rich, red petal color with a little touch of yellow on the inside.

**MAST**
