

MAST

YOUNG PLANTS

2020/2021

WELCOME

As we begin the process of planning another year, it causes us to reflect on our past wins and the opportunities we have experienced. We know that you have a choice of what young plant rooting business to purchase from, and at Mast Young Plants we take each order we receive very seriously with the goal of 100% order fulfillment. We have worked to improve our methods in such a way to provide a better job of filling your orders and meeting this goal.

This past year we updated some of our longstanding greenhouse procedures and implemented new ideas with positive results. We view each year as a learning progression which helps us refine and perform better in the future. We are grateful for your trust in us as your rooted liner supplier.

Our tag line is "Making You Priority" and our talented staff is devoted to being mindful of this, from our customer service, to growing and production, from research and trialing all the way down to providing you the best shipping methods, and we hope that you experience this in your relationship with us. Mast Young Plants is excited to have you look at our 2021 catalog. We are always striving to offer you the best material and spent time making sure that the new items have been trialed and meet our standards. We also take a close look at some of the items that we feel no longer meet our expectations and remove them to ensure you have superior quality plant material to grow and sustain your business and help you succeed in spring 2021! Thank you!

DEER RESISTANT

Research demonstrates these varieties to be less desirable to deer.

SEASON EXTENDERS

We grow every plant in our trial gardens all summer long, so we're confident these plants perform best in summer's heat.

MYP BEST SELLER

These varieties are top sellers and ones that you can feel confident will do well for you too!

NEW

These plants performed so well in our trials that we're offering them to you in our catalog this year!

LIKE US PLEASE

What's not to like? Check us out on Facebook.

SMALL POTS

These varieties can be grown pot tight on the bench for high density production.

MOUNDING HANGING BASKETS

These varieties grow more upright producing baskets which do not require sleeving.

TRAILING HANGING BASKETS

These varieties will spill down over the edge of the pot. Ideal for large premium baskets.

VINES

Climbers, fillers, and trailers! These varieties are great for trellises, baskets, or deco pots!

FOLLOW US!

We post images regularly on Instagram.

OUR LIVING CATALOG

Each year our staff brainstorms ideas of how we can get people who have never visited our trial garden before to come and see us. This year instead of us telling you that you should come, we have some visitor's exit poll comments and they can tell you why you should come!

"Loved the whole thing! You can see plants used in different ways like in ground, containers, and hanging baskets"

"Outstanding custom in-house mixed combos!"

"I loved the whole thing! Every plant was marked, and MYP staff was very personable."

"The display of their trial gardens is breathtaking. It truly gives you a view of what these varieties look like at the end consumer."

Our garden is part of the Michigan Garden Plant Tour which will be held **July 27 through August 7, 2020.**

We invite you to join us in 2020 to see our garden highlights:

-  500 unique, custom designed hanging basket and patio pot combinations.
-  150+ NEW ITEMS for 2020/2021 from the world's best and most well-known breeders in one location.
-  AAS trial grounds and this year all items will be trialed in containers. This includes both seed and vegetative introductions.
-  **2020 FEATURE ITEM TRIAL**
Combinations! We just talked about the 500 unique combinations we show in this garden, and now on top of all of those we will be sowing all breeder combinations that we don't carry. We like to do this for you to see and for us to validate that we are offering the best possible choices!
-  Shaded sitting and meeting space areas with wireless internet.

3525 Bristol Avenue NW
Grand Rapids, Michigan 49544
Monday through Friday
8am - 4pm
Mid-July through mid-September

6.25" inserts	6.25" inserts		4.25" inserts

288 Dracaena Spikes fit 3 trays per Half Box

THE MASTER BOX

Actual Master Box on a pallet jack

Master Boxes are 48" long by 48" wide and can be anywhere from 21" tall (single stack box) to 48" tall (double stack box) to 70" tall (triple stack box). The weight is anywhere from 150 lbs up to 467 lbs based on the size of the order.

Master boxes are delivered by the Fed Ex Freight service. In most cases a loading dock, forklift or skid steer is required to be able to off load the Master Box from the Fed Ex semi-truck.

Any orders that exceed 3 Standard Boxes, MYP will automatically ship in the Master Box unless otherwise specified by the recipient. Freight is billed per tray.

TRUCKS + TRAYS

MYP TRUCK

An MYP truck is a semitruck with a temperature-controlled trailer. Trays arrive on blanket-covered CC carts that must be off loaded at the time of delivery.

CC carts cannot be left at customer's facility. Freight is billed per tray. Please refer to our Ordering Guidelines for the MYP Truck Delivery Schedule and minimum order requirements.

LINER TRAY SIZES

51

Grown as 51
Sold as 50 (25mm)

Our most popular tray size, you will find the most varieties available in this size. Vegetative items are in Ellepots and seeded varieties are in loose fill.

INTRODUCING THE "QUICK BLOCK"

- Tried with positive results in spring 2019 and 2020 both internally and with customers.
- This is an innovative new product line by MYP that allows growers to turn combos even faster!
- Featuring Syngenta genetics, we have made our triple stuck liners BIGGER and much more impressive.

QUICK BLOCK SPECS

- Each Quick Block contains a Kwik Kombo™ Mix and is built from three 25 mm liners that are each 4-5 weeks old.
- Quick Blocks are made up of compressed coco fiber. When watered they absorb and increase in size. They come in a very attractive clear plastic tray. Each Block contains a variety label to be used when putting in your finished container.
- Plugs are planted into the Quick Block and grown for an additional 4 weeks where they get one more pinch and a B9/Florel spray application. Each of these steps are done to make sure the liners are ready to branch out, and quickly fill your finished containers after transplant.

FINISH TIMES

- 10" container – 1 Quick Block per pot for 4 weeks.
- 12" container – 1 Quick Block for 5 weeks or 2 Quick Blocks for 4 weeks.
- 14" container – 2 Quick Blocks for 4-5 weeks.
- Don't forget! Quick Blocks are ready to sell, and make an attractive package at retail for your customers who want to take them home and create their own combo pots.

ORDERING AND SHIPPING INFORMATION

- Minimum order is 6 blocks per variety as 6 blocks make up 1 shipping unit.
- Our half box holds 2 units of 6 blocks.
- Available weeks 12 – 20 only.
