

Calliope® Medium Dark Red Dark Leaf

With an outstanding deep red velvety flower color and great branching habit, Calliope® is unmatched in trials when compared to other market varieties. Calliope® Medium Dark Red geranium was this variety's predecessor and paved the way as an AAS (All American Selections) winner.

syngenta flowers

Features:

- Interspecific hybrid with zonal-type flowers and leaves.
- Mounded, semi-spreading growth habit with large double flowers that blossom all season long.
- New dark colored foliage.
- Great in containers, combination planters, hanging baskets, and in-ground landscapes.
- Exceptional performers in normal conditions, high heat, and drought.
