

CANNA CANNOVA®

The Cannova® series offers improved uniformity, germination, vigor, and branching as compared to open pollinated canna varieties. The series is more tolerant of lower light conditions and cooler night temperatures. It is excellent for in ground garden plantings, patio containers, and shallow water garden applications. Extremely heat and humidity tolerant.

FEATURING

Red Golden Flame & Bronze Peach

This exceptional hybrid series boasts strong colors that will capture the landscape market. With its saturated red with bright yellow-edged blooms, this will be a sure hit with home gardeners for their beds and as “thrillers” in mixed containers.

Bright peach blooms are striking against dark bronze foliage, making this a striking new addition that will add depth to any combination pot or landscape bed.
