

Evolvulus

BEACH BUM BLUE

A standout variety in trials, Beach Bum Blue outperforms all other evolvulus on the market for branching, habit, and overall flower power.

Features

- Beautiful seascape blue blossoms sit atop a mound of textured silvery-green foliage
- As a member of the morning glory family, evolvulus flowers will often close at night
- Excellent attractor of bees and butterflies

Care

- Will grow in partial shade, and performs best in full sun
- While evolvulus can withstand drought conditions, growth and flowering are better with consistent moisture
- Extremely heat tolerant
- Slow release fertilizer will improve performance
- Deadheading is unnecessary

FUN FACT

The genus name Evolvulus is derived from the Latin word *evolvere*, which means to unravel. This plant genus does not twine like others in the Convolvulaceae family.
