

HELIANTHUS  
SOL SEEKER™

GOLDEN  
NECTAR

NEW

ADD THIS NEW BICOLOR HELIANTHUS TO  
YOUR SPRING 2023 COLLECTION FOR  
HIGH IMPACT AT RETAIL

 DANZIGER

- **Compact Helianthus can be finished in 6.5" and 8" containers and in ground beds**
- **Height of 32-36" and width of 24-28"**
- **Day length response of 11 hours**
- **Can finish for late April in southern regions and May in northern regions**
- **Rooted liners will arrive pinched**  
Can finish a 6.5" or 8" pot without more pinching, resulting in a finished plant with 3-4 breaks. For more breaks, pinch the nodes one more time after transplant to encourage more shoots.
- **Aggressive PGR applications not necessary**  
Spray Daminozide at 1,000-2,500 ppm during growth phase to tone; to hold a finished plant height, apply a 1 ppm Paclobutrazol drench.
